

January 23, 2003

4 SHO Entertainment Enterprises  
1937 Bienvenido Lane  
Escondido, CA 92026  
ATTENTION: Rudy Mathieu and Lou Ward

Dear Rudy and Lou,

It is my great pleasure to acknowledge receipt of 4Sho Entertainment's gift of the Verbosity Network Management System for our Community Technology Network (CTN) and our affiliated Community Technology Centers (CTC's). This donation, effective January 24, 2003, is in support of our education literacy and Community Technology Network initiative to enhance the learning levels of our constituents and bridge the Digital and Literacy Divide in San Diego's underserved community. On behalf of our Staff, Board of Directors, but more particularly the thousands of clients we serve each year, I want to express our appreciation for your very generous support.

The San Diego Urban League is proud of its record of forty-nine years of service to the community. On an annual basis our programs in education health, family services, and employment & training assist more than 22,000 African Americans and other people of color toward their goals of economic and social equality. Your gift will assist us in raising the literacy levels of our constituents better preparing them for pathways to success.

Over the years it has consistently been our business "partners" who have provided the critical support to enhance our capability to provide services to our clients. We are deeply grateful to 4Sho Entertainment for understanding why this new effort is needed and helping us to push needed technology into places where it will bring the greatest results.

Also note that we endorse your product as kid-safe and adult friendly and feel free to use us as an endorser of your product.

Sincerely,

Maurice D. Wilson,  
Director, Employment & Training
